

MLC Aquatic Squad Structure

MLC Aquatic Swimming Club caters for swimmers from a junior competitive level through to National and Australian team level athletes. The MLC Aquatic squad structure is designed to give swimmers the ability move up, across & into a squad that will meet their swimming needs based on age, swimming ability, swimming goals and commitment level. There are 3 streams, on the bottom the non-competitive stream, in the middle the competitive stream and on the top the performance stream.
